## Prehistoric Animal Movement Cube

Can you stomp like a mammoth? Or flap like a Pteranodon? With this fun movement cube, your little one will practice their gross motor skills while pretending to be different prehistoric animals, moving the way they did.

### You'll need:

- Movement cube template—printed on cardstock will hold up better when rolling.
- Crayons or colored pencils
- Scissors
- Tape

### What to do:

1. Color in the different animals on the movement cube template.
2. Cut out the cube on the solid lines.
3. Fold along all the dashed lines.
4. Tape the flaps on the inside of the cube.
5. Roll the cube and move like the animal!
